Re: Mandarich Developments

Kenyon Plastering, Inc. is the largest, most respected stucco and plastering contractor in the United States.

Kenyon Plastering, Inc. is proud of the level of our service, the quality of our work, the craftsmanship of our staff and the record of integrity with which we approach all aspects of our business.

We are particularly proud to serve such an outstanding builder as Mandarich Developments. Gary Mandarich and Mandarich Developments have the integrity and high standards that serve both our companies well in building the highest quality home.

Since 1997, Kenyon Plastering has been Mandarich Developments sole stucco provider. I have worked closely with Gary and his staff throughout this time and am currently working on The Orchard @ Penryn Park project. From the ease of the bidding process, to the excellent communication of field scheduling, I have found Gary and his staff to be a very professional and knowledgeable company to work for.

I can confidently recommend Mandarich Developments as a solid and reliable general contractor and experts in their field.

Sincerely,
